SWETTENHAM HAS ACKNOWLEDGED LETTER
British Foreign Office Will Talk Matter Up Through Diplomatic Channels.
LONDON, January 23.—The Colonial Office is now in possession of official advice from Sir Alexander Swettenham, the Governor of Jamaica, concerning the exchange of letters between himself and Rear-Admiral Davis, but the extent of these advices, and whether or not they contain an explanation, an apology or extenuating circumstances, has not been disclosed.

What the British government and people condemn is the tone of the letter to Rear-Admiral Davis, the Foreign Office having declared that there was "no excuse for such language from an official to the officer of a friendly nation engaged in a work of humanity."

But on the question whether or not Governor Swettenham was justified in asking Rear-Admiral Davis to withdraw his armed forces from the island, British opinion inclines to hold that Governor Swettenham acted clearly within his rights.

by Williams, of Duplin—the Williams family bill. It provides that railroads or other public service corporations shall not be allowed to reduce the rate of dividends annually on the actual valuation of the property of the corporation necessary to conduct its business, this valuation to be assessed by the Corporation Commission. The company shall be permitted to hold in reserve a fund equal to 10 per cent. on the value of its property, all other earnings of the corporations to be paid into the State Treasury for the use and benefit of the State.

The bill provides that the Corporation Commission shall have the power to investigate the affairs of all such corporations and their expenditures and fix salaries of officers, and reduce salaries, when the commission deems them excessive. The bill was committed to the Committee on Public Service Corporations.

The House Committee on Propositions and Grievances this evening voted seven to six to report unfavorably the Douglas bill to prohibit the sale of "dope," drinks of soda, fountain, or any narcotic, excepting coffee and tea prepared in the usual way.

The House passed a bill making separation for ten years grounds for divorce in cases where there were no children. Also a bill to run and mark off the boundary line between North Carolina and Virginia from Fisher's Creek to Tennessee line.

Coast Line Will Comply.
The Corporation Commission is notified

by the Atlantic Coast Line Railroad Company that it is the purpose of the company to comply with the order of the commission for an extra passenger train, to be put on between Wilmington, Pennsylvania and Plymouth, and that the additional rolling stock necessary for the train will be ready for service within two weeks. This new passenger train will make important new connections for travel in the eastern part of the State.

The Corporation Commission will go to Wilmington tomorrow to hear citizens and railroad officials relative to a union depot by the Atlantic Coast Line and the Seaboard Air Line, a petition for which has been pending with the commission several weeks.

SCROFULA A FAMILY BLOOD TAIN

Scrofula is not a disease that is acquired, under ordinary circumstances. It is a deep-seated family blood taint, handed down from generation to generation, blighting the lives and sapping the vital forces of innocent persons who have inherited this legacy of disease. Parents who are blood relations or who have a consumptive tendency, or blood disease of any character, are sure to transmit it to their offspring, and it usually takes the form of Scrofula. Swollen glands, brittle bones, weak eyes, sores and eruptions on the body, Catarrh, and often deformities with hip disease, are the principal ways in which the trouble is manifested. In some cases the blood is so filled with scrofulous germs and poisons that from birth the sufferer is an object of pity because of suffering and a total lack of health, while in other instances favorable surroundings and prudent living hold the disease in check until later in life. A deep-seated blood disease like Scrofula can only be reached by the very best constitutional treatment. A remedy is required that can renovate the entire blood supply and drive out the scrofulous and tuberculous deposits. S. S. S. is the greatest of all blood purifiers; it goes to the very bottom of all blood disorders and removes every taint and poison from the circulation, makes rich, healthy blood and cures Scrofula permanently. S. S. S. supplies the weak, diseased blood with the rich, health-sustaining properties it is in need of, and makes this life stream fit to supply every part of the system with strength and vitality. Scrofula yields to S. S. S. because it is a natural blood purifier. Write for book on all and any medical advice desired. No charge for either.

CHAIRMAN SHONTS RESIGNS FROM PANAMA COMMISSION

Has Accepted Presidency of Ryan-Belmont Rapid Transit Interest.

STEVENS NOW IN CHARGE

President Roosevelt Said He Would Not Insist on Shonts Remaining.

WASHINGTON, D. C., January 23.—Chairman Shonts, of the Isthmian Canal Commission, has resigned. Mr. Shonts resigns to assume charge of the Ryan-Belmont Rapid Transit Interests in New York. It has been determined to establish the headquarters of the commission on the Isthmus, and Chief Engineer Stevens will be in charge.

No announcement was made as to who will succeed Mr. Shonts as chairman of the commission, but it was learned authoritatively that a high-salaried chairman to serve in that capacity alone will not be named.

This being admitted, it follows that John F. Stevens, the engineer in charge of the construction of the canal, will not be subordinate to another official on the Isthmus.

Without definite announcement therefore, it is regarded as a certainty that Mr. Stevens will be named as chairman of the commission and will assume duties as such in connection with his post as chief engineer.

Not a Surprise.
Mr. Shonts' retirement does not come wholly as a surprise. It has been rumored persistently that as soon as action had been taken upon the proposition to build the canal by contract, that Mr. Shonts would sever his connection and resume a calling more congenial to his taste.

Secretary Taft, of the War Department, today confirmed the rumor, by saying that Mr. Shonts' resignation was voluntary.

Secretary Taft to-night called attention to the fact that the work of organizing the commission had been completed and that Mr. Shonts had been brought over to assist the executive duties necessary to start the organization, his continued presence is not absolutely essential.

It was further stated that it has been known for some time that when the work of organizing the commission had been performed, Mr. Shonts would resign. The Ryan-Belmont syndicate, which has now secured his services, sought them some time ago. Before doing so, however, Paul Morton, former Secretary of the Navy and now president of the Equitable Life Assurance Society, called on President Roosevelt and acquainted him with the intentions of the Interborough-Metropolitan Company. It is said the President expressed regret at the thought of losing Mr. Shonts' services, but agreed to stand in the way if he should be elected president of the company.

He took his last wife to Tappahannock to live and in Baltimore wife he is now married to and notified the District police. An officer was sent to Tappahannock and returned to-night with Schools, who is about thirty-five years old.

LOOKS BLACK FOR SENATOR BAILEY
Records of Trust Transaction Are Genuine Documents.
AUSTIN, TEXAS, January 23.—Acting under authority granted him by the Texas anti-trust law, County Attorney Brady late this afternoon had H. Naudin, one of the auditors of the Waters-Pierce Oil Company at St. Louis, who is in this city, brought before Judge J. D. Moore, justice of the peace, in order to have him testify to the authenticity of documentary evidence held by the State in connection with the Waters-Pierce Oil Company, and which will be used in the forthcoming anti-trust suits against the company. This testimony is now playing a prominent part in the investigation of Senator Joseph W. Bailey by the executive committee.

Mr. Naudin's evidence is said to have established that various vouchers and other documents in the possession of the Attorney-General of Texas are not forged, and have not been altered, but are correct records of the transaction between the Waters-Pierce Oil Company, Senator Bailey, and others.

MERCHANTS' BANQUET.

Arrangements for the great banquet and annual meeting of the Retail Merchants' Association at Murphy's Hotel this evening are now complete, and the complete success of it, gastronomically, oratorically and socially, is assured in advance. It is about the latest one-year-old association in the State if not in the South. The list of speakers includes some of the best known men in the city, and this feature promises to be most interesting.

Mr. W. A. Clarke, secretary of the association, announces that those members who have not secured their tickets can get them by calling on him at 215 West Broad Street, the headquarters.

MAHLER COUPLE ARE REMANDED TO JAIL

Interesting Case of Alleged Shop-Lifters Continued to Saturday.

Harry Mahler and his wife, Mrs. Fannie Mahler, alleged shoplifters, were arraigned in the Police Court yesterday morning. The specific charge against the couple was the theft of a bottle of whiskey from the grocery store of Herman Schmidt, on Broad Street, where the couple were arrested Tuesday evening by Policemen Clark and Detective Williams.

Mr. Harry Glenn appeared as attorney for the prisoners. The case was continued to Saturday, and the two prisoners were remanded to jail.

The young woman presented a most pitiful sight as she paced to and fro in the office of Chief of Police Verrier, where she was arraigned. She had a considerable quantity of goods found in Mahler's room at No. 708 East Marshall Street, Mrs. Mahler is about twenty-four years of age. She is small of stature, weighing only about one hundred pounds, and of delicate appearance, and, withal, attractive and pretty.

Representatives of several merchants called at the chief's office to take a look at the goods to see whether any of the numerous articles had come from their stores. Among the places represented were Miller & Rhoads, Dabney & Johnson, Taylor & Brown, Schwartzchild Bros., Mosses, Rountree, Schmidt, Roschen, Meyer, Greenlee and the Presbyterian Publishing Company.

The case is attracting much attention and interesting developments are expected.

AMBULANCE HAD A VERY BUSY DAY

Most of the Calls Were Due to Injuries to Various Firemen on Duty.

The city ambulance, in charge of Dr. Mason, spent a busy day yesterday. Among its calls were the following: About 3:30 A. M., call to 715 West Main to attend a white man, Louis Bottoms, who had been struck by a handle of some machinery. Dr. Mason sewed up a gash in the scalp of about two inches and left him.

Later in the morning the ambulance was called to engine house No. 7, on Cary Street, to attend Fireman C. A. Rawson, who had cut a gash in his finger with window glass. The cut was sewed up and Rawson returned to the fire.

In the afternoon a call came from the H. W. Rountree & Bro. trunk factory, where two negroes, Willie White and Tom Jackson, had an altercation, in which White got the worst of it. Dr. Mason took five stitches in his head.

Last night the ambulance was again called to engine house No. 7, on Cary Street, where Charles Hirschberg, a fireman, was found to have wrenched his back. Hirschberg attempted to jump the key step of a horse wagon, and fell heavily to the ground. He was taken to his home, on Twenty-fifth Street, where he was reported as resting comfortably.

About 11:30 last night the ambulance was again called to the Cary Street engine house to treat another fireman, H. Lester Edwards, who had a badly cut hand from a piece of tin. He was treated and allowed to return to the fire.
